

The Fort Loudoun Lake Association is proud to report the total number of trash bags, logs and miscellaneous trash items that we have picked up from Fort Loudoun Lake and its watershed for each month, beginning in January of 2007. We have Zone Managers out on the Lake on a daily basis picking up trash from the shoreline and from our boom skimmers and our milk jug skimmers, which are positioned along creeks and tributaries that outfall into Fort Loudoun Lake. Our Zone Managers also remove dangerous logs and debris that pose a threat to boaters on Fort Loudoun Lake. Miscellaneous trash may include runaway boat docks, large trash pieces such as patio furniture, old tires, coolers, buckets, traffic cones, and more.

This report will be updated on a monthly basis for all interested parties to review.

Date	Riparian Zone (Feet of Shoreline Restored)	# of Bags from Lake and Watershed	# of Logs from Lake	Misc. Trash Items
2007 Total	100	1409.5	4622	465
January 2008		83	241	42
February 2008		115	148	45
March 2008		150	770	36
April 2008		93	519	20
May 2008	250	39	745	16
June 2008	400	86	1258	21
July 2008		59	1629	19
August 2008		80	1523	21
September 2008		171	1253	61
October 2008		94.5	1186	15
November 2008	100	136	331	12
December 2008				
TOTALS	850	2,516	14,225	780
