

The Fort Loudoun Lake Association is proud to report the total number of trash bags, logs and miscellaneous trash items that we have picked up from Fort Loudoun Lake and its watershed for each month, beginning in January of 2007. We have Zone managers out on the Lake on a daily basis picking up trash from the shoreline and from our boom skimmers and our milk jug skimmers, which are positioned along creeks and tributaries that outfall into Fort Loudoun Lake. Our Zone managers also remove dangerous logs and debris that pose a threat to boaters on Fort Loudoun Lake.

We also contract with the Turkey Creek Land Partners to pick up trash along Parkside Drive in the Turkey Creek Shopping Center and along the Greenway that borders the wetland area behind Turkey Creek, all of which also drain directly into Fort Loudoun Lake.

This report will be updated on a monthly basis for all interested parties to review.

<b>2007</b>	<b># of Bags from Lake</b>	<b># of Logs from Lake</b>	<b>Misc. Trash Items</b>	<b># of Bags from Turkey Creek</b>
January	108.5	41	91	32.5
February	80	9	33	32
